

Model **1025MUSB** | *NeoTech™ Series Headset*

The NeoTech 1025MUSB is an attractively-priced, mainstream, mid-weight headset for general-purpose classroom usage. The 1025MUSB delivers performance at a cost-effective price for 1:1 learning, assessment testing and more. Its audio playback is calibrated to enhance the tonal range of the human voice in language learning and its noise-reducing boom microphone captures a student's verbal response - not their neighbors, making it ideal for language learning, library uses and in computer labs. Compatible with Chromebooks, laptop and desktop PCs & Macs, it provides the versatility you need for BYOD and school-issued device requirements in the classroom.

Durable CaliTuff™ Cord

The 1025MUSB features a highly durable CaliTuff™ cord made of braided, PVC-jacketed material that resists chewing and cutting. The CaliTuff™ cord design includes a reinforced earcup entry point that resists stress separation and a tethered Velcro strap that provides cable management for easy storage.

Hygienic Packaging

The 1025MUSB comes in a heavy gauge plastic zip lock bag that promotes classroom hygiene by isolating head lice while providing utility for storage when not in use.

Specifications

| | |
|-----------------------|---|
| Speaker | 40mm Mylar |

3-Year Institutional Warranty

Califone's 3-year institutional warranty covers school usage, unlike consumer grade product warranties that are often voided when applied to damage sustained in classroom settings. This added level of protection helps stretch your budget by covering replacement costs if necessary in your particular situation.

Model **1025MUSB** | *NeoTech™ Series Headset*

1025MUSB Features

1. Padded headband comfortable enough for extended wear
2. Fully adjustable to fit all sizes
3. Noise-reducing unidirectional mic, swings up alongside the headband when not in use
