

6-Position USB Jackbox

Model 1216USB

1. Master volume control for headphone listening
2. Master volume control for microphone inputs
3. Detachable 6V power adapter with 6' cord included
4. Six color-coded 3.5mm plugs for up to six microphones
5. Six color-coded 3.5mm inputs for up to six headphones
6. Permanently attached 6' connecting cord with USB plug
7. Rugged ABS plastic casing for durability and safety
8. Two predrilled holes to permanently affix jackbox
 - Five skid-resistant pads won't mar or scrape surface
 - Ideal for listening centers, literacy groups, ELD/ ELL and Special Education applications, call center training and language labs

This multi-modal stereo jackbox is designed for connecting to computers, distributing audio for group listening and capturing verbal responses. Its high-speed USB connection transmits maximum fidelity for up to six headphones for conventional group listening applications. The 1216USB jackbox also features six microphone inputs for securing verbal responses, making it ideal for language learning and other speech activities. It can also be utilized in settings with higher student to computer ratios where utilization of VOIP calling is desired.
