OF EDUCATION

Listening First™ Stereo Headphones

Model 2800-BL

This Listening First stereo headphone is specifically built for young students with safety as its first concern. Rugged ABS plastic earcups withstand daily use with slotted earcup baffles to prevent accidental damage from prying fingers or foreign objects. The volume control is set from the audio source (not on the headphone or cord) for student safety. It is ideal for classroom story-time, library, and computer uses.

1. Adjustable headband comfortable for extended wear
2. Specifically sized for young students
3. Ideal for beginning computer classes and story-time uses
4. Permanently attached cord with reinforced "strain" connection
5. Right angle plug resists accidental pull out
6. 5.5' straight cord with 3.5mm plug set at right angle reduces accidental pull-out
7. Ambient noise-reducing earcup lowers outside noise so volume does not need to be as high, as recommended by audiologists for hearing safety
8. Rugged ABS plastic earcups resist breakage in high-use situations
9. Replaceable leatherette ear cushions
 - Volume control set by the teacher for student protection
 - IBM, iMac and Mac compatible
 - Two-year warranty for school use - unlike headphones purchased at consumer electronics stores whose warranties would be voided if used in schools

"Project Intercept"

Please contact us immediately if you experience any issues with your Listening First headphone. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com
