

# Discovery Headset Model DS-8VT

CALIFONE® INTERNATIONAL LLC. | THE SOUNDS OF EDUCATION | 800-722-0500 | CALIFONE.COM

The professional-grade Discovery headset is unrivalled for its comfort and durability in classrooms and computer labs.

It's ideal for digital language learning, STEM activities and assessments. The built-in noise cancelling electret microphone is designed for voice recognition programs and conveniently pivots from the earcup alongside the headband when not in use.

One hallmark of the Discovery is its deep earcup cavities. Their depth coupled with its circumaural earcups, make for an exceptionally quiet and comfortable listening experience.

The USB plug makes the Discovery ideal for connecting to some tablets and the most popular laptop and desktop computers.

*The audio playback is calibrated to enhance the tonal range of the human voice, which is critical for language learning.*

**Compatible with Chromebooks, iPads, iPhones, Galaxy, Surface, laptops, desktops, & MACS. Click to read more.**

## 3-Year Commercial Warranty

Covers use in schools, which is considered to be a commercial / industrial application. Warranties on headphones made for consumer uses are voided when used in schools. Click to read more.

## Features

1. Rugged and adjustable ABS headstrap with "Comfort Sling" better distributes the weight for increased comfort
2. Noise-reducing circumaural earcups lower external noise so volume needn't as high for hearing safety and facilitates concentration on the task at hand
3. Volume control on earcup
4. Universal 3.5mm To Go plug
5. Replaceable 3' straight cord long enough to avoid accidental pull out
6. Noise-reducing electret mic pivots from earcup
7. Industry's deepest earcup cavity provides unmatched comfort

## Specifications

Headphone	40mm Mylar, Ferrite Cobalt magnet
Impedance	64 Ohms
