

Model **TP-50** | *Portable PA Tripod*

*Shown with
PA920
not included*

The portable TP-50 Tripod supports the PA920 PA Series. Simple to set up and light enough to easily transport, it's made with mar-resistant powder-coated over thick aluminum tubing for durability. Once fully unfolded, the heavy-duty TP-50 has an extra-wide footprint for additional stability.

TP-50 Features

- Threaded, triangle shaped, tension-adjustable knob for quick and easy height adjustments
- Beefy 1-3/8" aluminum tubing withstands repeated use
- Supplemental cotter-pin gives additional reinforcement
- Stability assured with wide stance 40" triangle *(measured from tripod leg tip to tripod leg tip)*
- Pre-drilled center post for quick & easy height adjustment
- Maximum height adjustment 74" for optimum projection
