

10-Person Assistive Listening System

WS-AL10

This 10-person Assistive Listening System (WS-series) is designed for audio amplification for a select group of listeners in auditoriums, theatres, and other settings.

With up to a 300' transmission range from the transmitter to the listeners*, this System delivers maximum flexibility.

The unique functionality of the WS-series also enables it to be used in houses of worship, for business functions, translation activities, and other settings where mobile audio assistance is needed.

- Warranty for school use - unlike items purchased at a consumer electronics store whose warranties would be voided if used in schools

"Project Intercept"
